HP Blue Back Billboard Paper, 1372 mm x 80 m (54 in x 262 ft), 125 g/m²

HP CG502A photo paper Satin:

- HP Blue Back Billboard Paper is a highly opaque, satin finish media specifically developed for outdoor billboards, posters and kiosks. The satin finish paper is optimally compatible with HP Latex and low-solvent printers.
- With its multilayered satin coating, HP Blue Back Billboard Paper consistently produces brilliant, high-quality prints. Coating absorbs ink and then encapsulates colorant molecules delivering high colour brilliance as well as water resistance.
- Water-, tear- and scratch-resistance and excellent folding properties make this media versatile for outdoor use. Save money - durable material construction minimises reprints. Save time - easy to fold and handle for maximum efficiency.
- The paper's blue backing ensures high opacity and reduced shine-through on all applications. Due to its opacity, it can be applied directly over previous prints, saving time and labour.
