A2 Ink Jet Back Light Film

Epson Ink Jet Backlight Film, DIN A2, 170g/m², 10 Sheets:

This opaque back light film enables the print to be on the reverse of the film, which protects it and gives it a gloss finish. If illumination is provided behind the printout it takes on a three dimensional effect and dramatically increases the vibrancy of colour. This unique film is ideal for creating back lit displays, such as window signs and also for viewing images on a light box. The maximum resolution is 1440dpi.
