Enhanced Synthetic Paper Roll, 24

Epson Enhanced Synthetic Paper Roll, 24:

Enhanced Synthetic paper provides a 720 dpi high quality output and quick drying times. The matte surface makes it non reflective for display applications and is also water resistant for increased durability. An affordable, polypropylene-base media, it's thin, light, and very flexible with a durable, wet-strength base. It delivers accurate colours and vivid results on its high-quality matte surface. An instant-drying paper, it's excellent for indoor banners and outdoor signage. When laminated, it's perfect for outdoor signage applications as well.

Like all of Epson's innovative media, this paper is engineered to give you the highest resolution and colour saturation possible. Epson's printer driver software actually optimizes the amount of ink released onto the page, based on the type of paper used. As always, Epson supplies guarantee Epson quality.
