

Canon PF-01 print head

Brand : Canon

Product code: 0881B001

Product name : PF-01

Print Head - PF-01 - Dual print head system for IPF500/600/700/5000/9000

Canon PF-01 print head:

Engineered for speed and advanced image production, IPF5000/9000 boast Canon's dual print head system to lay down ink with unprecedented speed and accuracy. Unlike conventional printers with a single print head, IPF5000/9000 use two high-precision, high-density print heads with a total of 30,720 nozzles. It lays down precise 4pl ink droplets to produce sharp detail and excellent image quality.

The superfine 4pl droplets produce delicate color gradations and high-definition. The twin lines of nozzles on the new print heads enable the IPF5000/9000 to minimize the number of printing passes and still maintain print quality. Each of the 2 print heads contain 6 colors, for a total of 12, each employing 2,560 nozzles for a grand total of 30,720 nozzles. This print head technology enables the iPF9000 to print at a true 1200 dot pitch with remarkable speed.
