

Epson Pre-treatment Liquid

Brand : Epson

Product code: C13T43R100

Product name : Pre-treatment Liquid

Pre-treatment Liquid

Epson Pre-treatment Liquid:

Ensure quality prints on dark garments
Apply directly to black or dark coloured garments to help ensure the best quality output

This pre-treatment liquid has been developed specifically for use with UltraChrome DG ink. It is required when printing on black or dark colour garments to ensure the best quality output.

The liquid is concentrated and needs to be diluted with pure water in a ratio of 1:1 to 1:3 (pre-treatment to water). Once it has been diluted, the liquid can be applied directly to the garment before printing.

Epson recommends the use of only genuine Epson pre-treatment liquid as the use of other products may affect your print quality.
Epson Pre-treatment Liquid. Country of origin: Indonesia, Compatibility: SureColor F2100 Epson SureColor F2000. Quantity per pack: 1 pc(s), Package weight: 23.4 kg, Package width: 305 mm
