- Keep your fleet secure and set security preferences—any time—with HP Jet Advantage Security Manager software.
- Control who accesses the printer and its confidential documents with secure user authentication.

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>
